

How to remove your AT&T or Verizon SIM Chip from the SIM Card

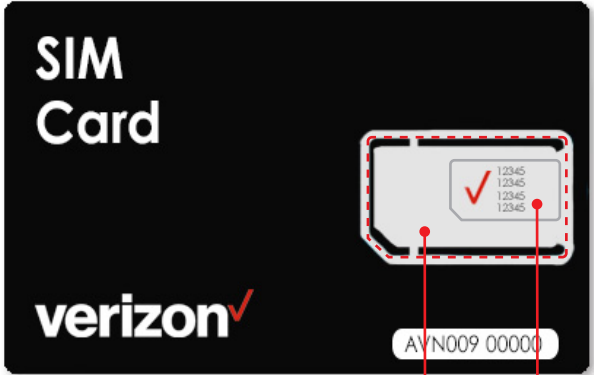

It is **essential** to remove the SIM chip properly from the SIM card or the chip will not fit in the terminal and a replacement card will need to be purchased.

SMALL CHIP

LARGE CHIP

Carefully remove the **large chip** while keeping the **small chip** intact.

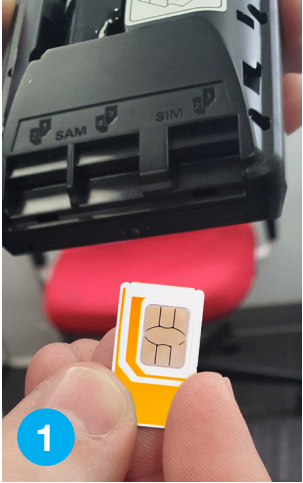

SMALL CHIP

LARGE CHIP

Inserting your SIM chip into your Dejavoo Z9 4G terminal

1. Remove the large SIM chip from your SIM card.
2. Make sure the gold contact on the chip is facing downwards and insert the chip (bevelled edge outward) into SIM slot #1, following the diagram on the back of your terminal.
3. Push the SIM chip into the slot as far as it will go.
